Decatur, Illinois 62526

**RE: U. S. Environmental Protection Agency (EPA) Draft Permit Number  
IL-115-6A-0001 for the Well CCS #2 in Decatur, Illinois**

Dear Mr. Frommelt:

The U.S. Environmental Protection Agency has prepared an underground injection control (UIC) draft permit for the well referenced above. Please see the enclosure. We have announced a 45-day period in which the Archer Daniels Midland Company or any other person may comment on the draft permit.

To preserve your right to appeal any final permit decision that may be made in this matter under Title 40 of the Code of Federal Regulations (40 C.F.R.) § 124.19, you must either participate in the public hearing or send in written comments on this draft permit decision. Following such participation, the first appeal for review of any condition of the final permit decision must be made to the Environmental Appeals Board of the EPA. Such a petition must include a statement of the reasons supporting review of the decision, including a demonstration that the issue(s) being raised for review were raised during the public comment period (including any public hearing). The petition should, when appropriate, show that each condition being appealed is based on either, (1) a finding of fact or conclusion of law which is clearly erroneous, or (2) an exercise of discretion or an important policy demonstration which the Environmental Appeals Board should, in its discretion, review. If you wish to request an administrative review, you must submit such a request by regular mail to the U. S. Environmental Protection Agency, Clerk of the Board, Environmental Appeals Board, 1200 Pennsylvania Avenue, N.W., Mail Code 1103M, Washington, D.C. 20460-0001. Requests sent by express mail or hand-delivered must be sent to the U. S. Environmental Protection Agency, Clerk of the Board, Environmental Appeals Board, 1201 Constitution Ave., NW, WJC East, Room 3332, Washington, D.C. 20004. The request must arrive at the Board's office within 33 days of the permit issuance. This includes the 30-day requirement set forth in 40 C.F.R. § 124.19 (a) and an additional three days for the delay caused by mailing. The request will be timely if received within this time period. For this request to be valid, it must conform to the requirements of 40 C.F.R. § 124.19. According to 40 C.F.R. § 124.10(b) and § 124.20(d), a public notice of the preparation of a draft

permit shall allow at least a 30-day public comment period and three days to account for the delay caused by mailing. At the end of the public comment period you will be notified if any significant changes in the draft permit are required. If no changes are made, the final permit will be issued without prior notification.

If you have any questions, please contact Allan Batka of my staff by telephone at (312) 353-7316 or by email at [batka.allan@epa.gov](mailto:batka.allan@epa.gov).

Sincerely,

A handwritten signature in blue ink, appearing to read "Tinka G. Hyde".

Tinka G. Hyde  
Director, Water Division
